GRUEN WATCHES

P. H. S. STUDENTS OBSERVE ORAL HYGIENE WEEK

Oral Hygiene week was observed by the Freshman Class of the Paris High School, November 14 to 19, and some wonderful improvements have resulted. Every boy and girl had an examination made of their teeth by the local dentists and from eighty Freshmen, nineteen had no cavities; eleven have had one-sixth year molars extracted, fifteen have two molars missing, and seven have had three or four teeth pulled; twenty-eight have cavities to be filled. The average age of the Freshmen is fourteen and every precaution is being taken to preserve their teeth and good health.

Miss Elsie Morrison won the prize offered for the best composition on "The Proper Care of My Teeth."

No Freshman will be given credit in physiology until he presents a statement from his dentist saying that his teeth are in perfect condition. This will mean perfect attendance at school, better lessons and good health.

SOMETHING USEFUL FOR CHRISTMAS PRESENT

What could be more useful as a Christmas present than some of the Pyrex Glass Cooking Pieces? We have a splendid stock of it.

TOBACCO GROWERS CHOOSE DELEGATES

Directors To Be Elected At Lexington To-day and Organization Effected To-morrow

BOURBON CO. REPRESENTED

With the meeting of the directors of the Burley Tobacco Growers' Cooperative Association in Lexington, Wednesday, the labors of Judge Robert W. Bingham and the men and women whom he called to his assistance early last spring as an organization committee will come to fruition in the largest co-operative marketing association in the world. It is composed of 55,000 members in four States, controlling a produce the annual value of which will range between \$40,000,000 and \$80,000,000.

Wednesday at 11 o'clock, at the offices of the association at 620 South Broadway, Lexington, the directors will meet for organization. They will be elected Tuesday morning at 11 o'clock by delegates chosen in primary elections held in every county of the burley district Monday between the hours of 7 o'clock in the morning and 4 o'clock in the afternoon.

There are twenty-two districts and the total number of directors will be brought to 25 by the addition of three at large.

The period during which the books of the association were reopened to give outsiders a chance to join after the success of the organization was assured, closed Saturday. Organization Manager Joseph Passonneau said that, while reports from all the counties were not in, the number of growers in the association undoubtedly would be more than 55,000 and that he was confident the total pledged to the association would be close to 200,000,000 pounds if it did not exceed that figure.

The attitude of the "Big Four" manufacturers, as ascertained by representatives of the association, it was said, indicates that they will deal with the association readily on a basis that will insure a fair profit to the growers.

With few exceptions, all warehouses in the four States have agreed to close their floors for the sale of burley tobacco, to await the action of the association in taking them over by lease or purchase. A committee has been active in arranging the details of the transfer, which involves title of about \$10,000,000 worth of real estate. The members of the committee believe that everything will be ready to receive tobacco within few days after the directors organize.

P. H. S. AGRICULTURAL CLUB ELECTS NEW OFFICERS

The Agricultural Club in the Eighth Grade of the Paris City School met Monday, December 5th, and elected the following officers for the coming year:

Robert Harris—President.
Frances Taylor—Vice-President.
Farris Adams—Secretary.

Roberta Adams—Treasurer.
They have just completed their seed corn test and from one hundred grains tested, ninety-eight of them sprouted in the required time.

PARIS HIGH SCHOOL PRESENT PROGRAMS

Program of Interesting Events Scheduled For This Week At The City Schools

REHEARSING XMAS CAROLS

Wednesday, December 21, from 2:30 p. m. till 9:00 p. m., and Thursday, December 22, from 9:00 a. m. to 9:00 p. m., the students of the Paris City Schools will have on display at the City School, work that they have done this session. Every department of this school will have on exhibit, and every student will have some work to show to his or her friends and relatives.

The school is keeping the exhibit open during the evening in order to give the business men of Paris a chance to visit the school and inspect the work that is being done.

Special attention is called to the Domestic Department bazaar. In this department will be found a great number of attractive and useful articles, which will be on exhibit and for sale.

The Music Department will sing Christmas carols in the afternoon from 2:00 to 4:00 o'clock.

Every child in school will be heard in some music group. One of the most attractive and most practical demonstrations will be the one given by the Sophomore class of the High School, in "First Aid to the Injured." This course includes a thorough training in physiology and instruction in first aid to the injured, and in prevention of accidents. The demonstration of bandages will include the application of the open triangular for the arm, chest, hand, head and foot; folded triangular or cravat for eye, neck, jaw, hand and head; roller bandage used as a circular reverse and figure of eight for arm and finger, and the fourtailed bandage for forehead, top of head, back of head, nose and jaw. The method of applying the compress, splints and tourniquets will be shown; also rescue methods in electric shocks, drowning and suffocation and the process used in artificial respiration.

A number of useful and attractive articles made in the Manual Training Department will be on exhibition and for sale.

At eight o'clock, Wednesday evening, December 21, Miss Bramlette and the students of the Expression Department will give two very attractive one-act plays. You do not want to miss this program. The entire building will be dressed

GIVE THE NEW OFFICIALS A CHANCE TO MAKE GOOD

The new Board of Council of the city of Paris, whose members have already been sworn in, will be confronted with problems that will require great ability in the solving. The city's finances, in spite of the fact that Paris is in better shape than most towns of its class in the State, will bear watching. The outgoing administration has done well in the matter of improving the streets and in handling the other affairs of the city. But the construction must go on until time is no more.

It is to be hoped that the people of Paris will give the Council their earnest support, that they will refrain from "knocking" until the Council has been given its chance to demonstrate its fitness fairly and aid by constructive criticism and helpful suggestions. After all, it is not so much what the individual members think that will sway the body in its deliberations. The Council can only interpret public sentiment. This is a good time to lay down the hammer and get behind the push, and at the same time to serve notice upon one and all that Paris, in the words of that celebrated English general, "expects every man to do his duty." And that duty means taking care of the best interests of the city of Paris, without partisanship, bias, personal feelings or any number of "axes to grind."

Have we made our position clear?
